

- 1** Time to get a-folding!
Fold in half and half again
from corner to corner

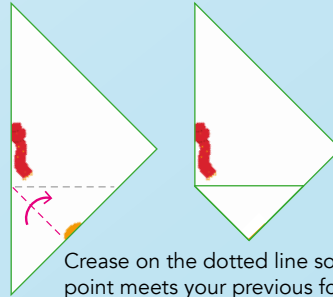

- 2** Fold the head corner down so the
point meets the middle of your creases

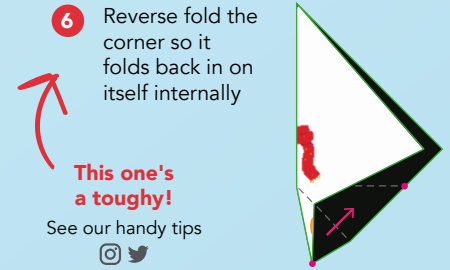

- 3** Fold in the other corner to meet the
crease point created in step 2

- 4** Flip over and
reverse fold your
creases from step 1

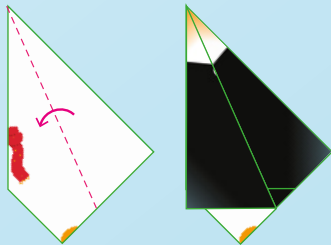

- 5** Crease on the dotted line so the
point meets your previous fold

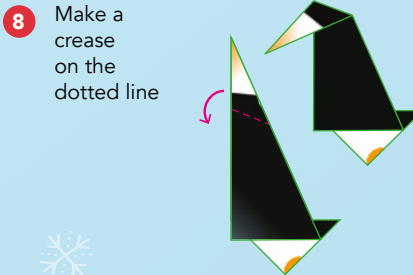

- 6** Reverse fold the
corner so it
folds back in on
itself internally

**This one's
a toughy!**

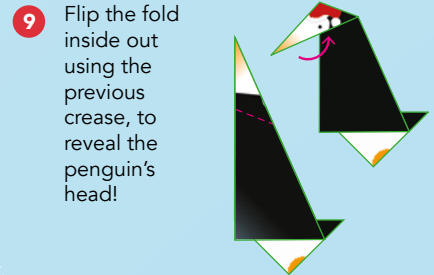

See our handy tips
 

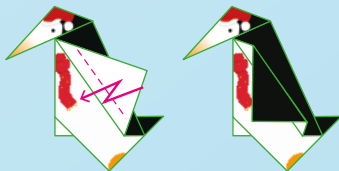

- 7** Fold front flat on the dotted line, flip
over and repeat on the other side

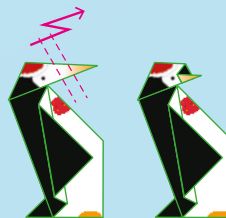

- 8** Make a
crease
on the
dotted line

- 9** Flip the fold
inside out
using the
previous
crease, to
reveal the
penguin's
head!

- 10** Fold the wing back and forwards
again on the dotted line, then repeat
on the other side

- 11** Crease the beak back and then
forwards on the dotted lines

- 12** Open up the beak from the
bottom and push the beak
inwards using the previous creases
